

Our first review.... WOW:

"I've gone over your book and I'm impressed. All information is correct. I see you have written this to target young fly fishers making sure it is easy to understand. You managed to cover most everything a beginner would need to know. I will keep this book in mind when I run my schools and recommend people purchase it as reference.

Good Job Jack.

I give you permission to use my name in promoting the book."
